Oregon Historical Modelers Society (OHMS)

OHMS is a chartered chapter of International Plastic Modelers Society (IPMS). We are a group of modelers, collectors, and enthusiasts who meet monthly to share techniques, news, display our work and just have fun. For more information call **(503) 282-2790**.

Our monthly meetings feature modeling technique forums, guest speakers, model displays and contests. Technique forums from the past include weathering tips, bare metal finishes, resin casting, and seam filling. Members may present work in-progress as well as finished models to display and share. OHMS members receive an award winning monthly newsletter recapping the past month's meeting, highlighting future events in the region and featuring articles on modeling or aviation topics. OHMS also has a Web page at:

<http://www.geocities.com/ipmsoregon/>

For more information, call **(503) 282-2790**, E-mail at **ipmsoregon@geocities.com**, or fill out the form below and mail it to:
